

FALL into Quilting Adventures —

August 30-September 2, 2009

and study with **FRIEDA ANDERSON**

TREES...working collage style in **FREE FORM FUSING AND MACHINE QUILTING**

BEGIN —working with personal fabric and instructor hand-dyes, we will construct individual units styled within tree imagery—the leaf, the subtle curves and seasonal colors. Oak trees, pine trees, straight trees—endless curved and textured trunks, leaves and stems—opportunity unlimited. **THEN**—build confidence in developing intrinsic ideas from photo to fabric—from image to physical units. **AND LAST**—place a strong emphasis on advancing strength in machine quilting. Starting with basic shapes we will explore various designs to gain confidence and skill in developing our own signature skills in complimentary machine quilting.

from Frieda's voice... "The techniques I teach are liberating and free form. Fusing allows for endless possibilities with easy construction of shapes and details that will open the doors of creativity for all levels of quilters. And while fusing is liberating so is free motion machine quilting. I will walk even the beginning machine quilter through a series of exercises that will explain and develop each one's ability to create free form quilting designs." www.friestyle.com

WHERE—YE KENDALL INN —BOERNE, TEXAS

3-Day Workshops/3 nights*

Double Occupancy —per person—\$650.00

Single Occupancy —per person—\$785.00
